

NATIONAL
INTERNSHIP
PROGRAMME

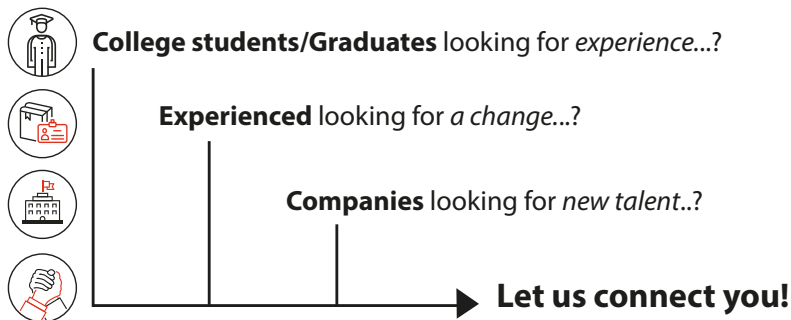

LOOKING FOR THE RIGHT INTERN? WE CAN HELP!

If you haven't already noticed, it's that time of year when intern applications flood your inbox. College students have just graduated, or started summer break, and are looking for some work experience.

Bringing an intern onto your team can be a great way to expand your team's capacity, plus give you a chance to mentor someone just starting out or changing their career.

Have an opportunity available? Partner with the NWDA and let us help you connect to your next intern.

Already registered with us? You can post the internship directly on the **Job Link Portal** and college students registered with NWDA can apply online.

For more information on how to register your company and post your internship, contact us at **945-3114** or email nwda.internship@gov.ky.
